

Oceanpower

# Small Size High Configuration

High-end intelligent tabletop soft ice cream machine

Model: NE1212

Pre-Cooling QuickCooling Stirring Technology StandbyMode LowMixSensor

# ADVANTAGES & BENEFITS

## SOFT SERVE MACHINE NE1212

### Double Refrigeration Systems Double-Brand Compressor

Strong cooling, Double Refrigeration Systems; Cylinders and Hoppers are driven by two independent refrigeration systems; Complementary impact, Guarantee refrigeration output; the main refrigeration system adopts Tecumseh 1.25HP compressor imported from France

Transmission system, equipped with brand-integrated motor and Oceanpower customized frequency converter, stable operation, static, adapts to the characteristics of frequent start and stop of ice cream machine, instant high load, overload protection, extended service life

### Ice-cream Liquid Stirring & Air Pump

Ice-cream liquid stirring can avoid mixture stratification for a long time, which makes ice-cream liquid mixing evenly and improves the cooling efficiency of mixture in the hopper. Adjustable air pump tubes improve the taste and increase production capacity. The maximum expansion can reach 35%; ice cream will be silky and creamy. (Different mixture, different expansion rate)

Equipped with HC-S system, a control system designed specifically for vending machines. Monitoring the performance of the entire machine recording operating parameters for easy maintenance, One-key making ice cream, local remote communication and two-way control

## TECHNICAL DATA

Model	NE1212
Flavors	Single
Capacity	30L/H
Mix Hopper	12L
Cylinder	2L
Power	1900W
Main Compressor	1.25HP
Standard	Pre-Cooling, Mixture Agitator, Air Pump, Stainless Steel Shell, Frequency Converter
Options	Stainless Steel Handle Discharge / Automatic Discharge / Discharging with Vending Machine
Cooling System	Air Cooled
Refrigerant	R134A (Standard) / R404A,R448A(Optional)
Voltage	220V 50Hz / 60Hz
Communication Interface	RS232
Dimension(mm)	402 *622*849.7mm
